

Metalbilt® Xpanda Doors

Applications

Shop fronts, loading bays, counter security, windows, driveways, partitions in warehousing and shopping malls, or anywhere that requires a robust barrier with an attractive appearance.

Features

- Xpanda grills retract to as little as 15% of their expanded width
- White or black powder coat finish as standard finish. Other powdercoat colours available
- Hinged expanding or fixed top hung expanding
- Standard hinged application allows for the door to be swung away from the opening allowing unobstructed access

*55 years of manufacturing experience and continuous refinement.
Service and repairs, 24 hours a day, on all makes of commercial doors.*

Metalbilt® Xpanda Doors – Specifications

SAFTIDOR

- A highly versatile security door that is easily operated without a track, yet provides a barrier of steel
- The Saftidor is modular and suitable for all opening widths and for heights up to 2.5m
- Available as hinged expanding or fixed top hung expanding
- The design of the grill system permits the door to retract to within 15% of its opening size and the hinging system means the grill can be swung away from the opening
- Suitable for domestic or commercial applications
- White or black powder coat finish as standard
- Ideal for shop front protection in conjunction with alarm systems, partitions in warehousing and shopping malls, enclosures, factory pedestrian barriers, warehouse roller door under fills, boat enclosures, screens, stock partitioning.

MULTIGUARD

- Multiguard is a high security powder coated steel expanding trellis grill system
- Fixed between a top and bottom track making attack complicated
- Suitable for areas of any width and has a maximum height of 3m
- Two-point high security slam locking standard
- White or black powder coat finish as standard
- The lattice designs allows the grill to stack to 12% of its opening size
- Emergency release strike pillar available
- Ideal for airports duty free areas, shopping centres, drug and alcohol outlets, all high security applications.

DIAMOND DOOR

- A lattice retractable grill specifically designed for use in the protection of emergency exit doors
- Available in a variety of widths and in heights up to 2m
- Emergency release strike pillar available
- Standard hinged application allows for the door to be swung away from the opening allowing unobstructed access
- No maintenance required
- Ideal for applications where ventilation and security are a requirement, areas where restricted limb access are required, e.g late night tellers, casino payout booths, petrol station counters etc.

Standard doors meet the 5 year durability requirements of the N.Z.B.C. Details available on request.

We reserve the right to alter specification without notice and without incurring obligation.
