

Complete Industrial and
Commercial Door Solutions

Metalbilt Doors

Metalbilt pioneered motorised roller shutters, steel and aluminium rolling grilles to meet ever changing market requirements in New Zealand and the South Pacific. Today we are able to offer the most comprehensive selection of commercial and industrial doors available.

With premises in Auckland, Wellington and Christchurch, Metalbilt provides cost effective solutions for your entire industrial and commercial door needs. With over fifty years in the door industry you can be assured you are dealing with a reputable company, that stands by it's products.

We have New Zealand's largest product range available, providing doors for openings in a wide variety of applications, such as factories, shops, fire stations, hospitals, schools, carparks and aircraft hangers. Our customers range from the corner Dairy to Government and large Corporates.

Design

Metalbilt customers benefit from over fifty years of product development, as well as the latest concepts using computer-aided design techniques. Our door hardware and control systems have been well proven under rigid industrial conditions.

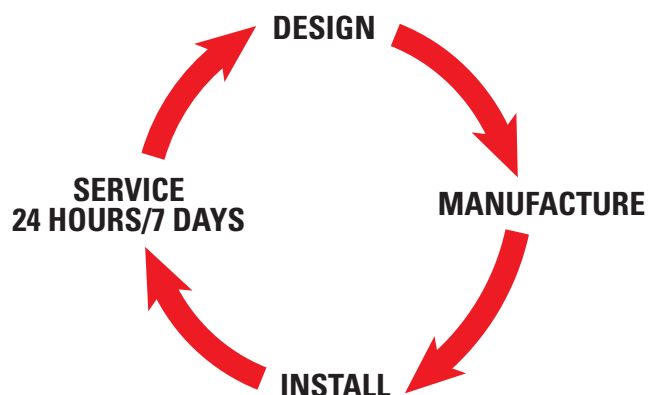

Extensive consultation with architects and consulting engineers during the design phase for special doors ensures the customer receives an attractive and reliable door for their specialist application.

Left; Clearspan Shutter.

Right; 12mm Rolling Grille.

Cover Left; Renlita Bifolding Door.

Cover Right; Steel Roller Shutter.

Left; Aluminium Vision Shutter.

Middle; Henderson Sectional Overhead Door.

Right; Heavy Duty 19mm Grille.

Manufacture

We have one of the largest well equipped factories in New Zealand, where our skilled staff manufacture our range of doors to high quality standards. Our flexible planning systems enable us to consistently meet the short lead times demanded by the building industry.

Installation & Service

Metalbilt have specially trained installation crews and fully equipped hiab trucks to provide safe and efficient installation of our products. Our service division operates 24 hours per day, 7 days a week attending to the customer's needs and requirements.

Customer Service

This starts from the moment the first contact is made. It progresses through the design and specification stage, and on through production and installation. It doesn't stop when the door system has been commissioned and handed over to the customer. We offer a spares and servicing agreement to ensure a long and satisfactory life for every door supplied.

Nationwide, we provide through a network of service agents the following products:
